

Italy (country code +39)

Communication of 25.VI.2012:

The *Autorità per le Garanzie nelle Comunicazioni (AGCOM)*, Rome, announces an updated numbering plan for Italy (country code: +39) approved with resolution n. 52/12/CIR of 3 May 2012 (see URL www.agcom.it).

Presentation of national ITU-T E.164 numbering plan
for country code +39

a) Overview:

The minimum number length (excluding the country code) is : 3 digits.

The maximum number length (excluding the country code) is: 12 digits.

The maximum number length has some exceptions for numbers used at national level (see detail of numbering scheme section).

The plan is organized by services, and the first digit identifies the category of the service provided:

0	Geographic numbers
1	Short length numbers to be assigned to specific services and premium rate services
2	Reserved for future needs
3	Numbers for mobile and personal services
4	Numbers for internal services and premium rate services provided only by means of SMS/MMS and data transmission services
5	Numbers for nomadic telephonic communication services
6	Reserved for future needs
7	Numbers for Internet access services (dial up), and other specific utilizations
8	Numbers for free-of-charge services, for services with charges shared between caller and callee, and for premium rate services
9	Reserved for future needs

For details about the assignment of rights of use to operator see URL: www.sviluppoeconomico.gov.it (communication department – telephony - numbering resources; in Italian).

b) Detail of numbering scheme:

For geographic numbers, the maximum length is 10 digit except in case the NDC is followed by a digit equal to 1, where the maximum number length is 11.
